YOUR FIRST CHOICE IN QUALITY PRODUCTS

About Us

Walker Products began supplying the fuel system needs of the automotive industry in 1946. Today Walker is one of the largest privately owned manufacturers of fuel system components and engine management devices.

We serve major Original Equipment Manufacturers, Co-manufacturers, Rebuilders, and Retail customers in the fuel, engine management and exhaust markets worldwide.

Walker Products' offerings include Carburetor and Fuel Injection repair kits, Oxygen sensors, Exhaust Gas Temperature sensors and other engine management products such as Cam & Crank position sensors, Knock sensors, Throttle Position sensors, Mass Air Flow sensors, Manifold Absolute Pressure sensors, Engine Coolant Temperature sensors, Fuel Injectors, Fuel Pressure Regulators and much more.

We are committed to supplying products manufactured to meet or exceed OEM standards and specifications. This effort is backed by our own manufacturing, product management and engineering staff to ensure it is maintained and accurate in the production of quality parts, vehicle applications, instruction sheets and technical support.

Exhaust Temperature Sensors (ETS) High Temperature Sensors (HTS)

**Engine control and
over-temperature
protection**

**Long life in extreme
conditions: vibration,
contamination, and high
temperatures**

**Temperature accuracy
that meets or exceeds OE
requirements**

**OE construction with high
temperature metals and
ceramics**

An ETS/HTS typically measures temperatures up to 900 degrees C in the exhaust system of the vehicle. The sensing element of an ETS/HTS changes in resistance with changes in temperature. The engine computer measures the resistance and calculates the temperature.

Depending on the location of the ETS/HTS, the engine computer uses the temperature information to control a wide variety of processes in the vehicle. These processes include particulate filter regeneration, selective catalytic reduction (SCR), exhaust gas recirculation, turbo boost, and overall engine combustion.

The Walker ETS/HTS utilizes an OE construction consisting of high temperature metals and ceramics. This allows the Walker sensors to deliver stable and accurate output despite the heat, vibration and contamination found in the exhaust.

Most ETS/HTS are used to monitor the particulate filter. In these cases, failure to replace a defective ETS/HTS will result in an obstructed filter and possible engine damage. Always replace a defective sensor with a quality Walker ETS/HTS.

The Walker ETS/HTS meet or exceed all OE specifications. The ETS/HTS gives the highest accuracy and reliability in extreme conditions.

OE Fit, Form & Function

Servicing the industry for over 60 years to reduce your inventory and increase coverage and profits.

Comprehensive Engine Management Solutions

- Carburetion Repair Kits and Accessories
- Fuel Injection Repair Kits and Accessories
- Oxygen Sensors, Bungs and O2 Tools
- Ignition Wire Sets
- Coil-On-Plug Boots
- Ignition Coils
- Coil-On-Plug
- Exhaust Gas Temperature Sensors
- Engine Management Components:
ACT Sensors, ECT Sensors, Cam and Crankshaft Position Sensors, EGR Valve Position Sensors, EGR Valve Pressure Sensors, MAP Sensors, MAF Sensors, Throttle Position Sensors, EGR Valves, IAC Motors, TABPV, Fuel Pressure Regulators, TBI and Port Fuel Injectors, Fuel Seal Repair Kits and High Temperature Sensors.

YOUR FIRST CHOICE IN QUALITY PRODUCTS

EXHAUST GAS TEMPERATURE SENSORS
