Vehicle Speed Sensors (VSS)

All of Walker's Vehicle Speed Sensors undergo rigorous testing.

1. Dimensional

All parts pass dimensional analysis versus OEM samples.

2. Function Testing

All parts are function tested for correct timing, amplitude and frequency versus OEM samples.

3. Vibration Testing

All samples undergo a cycle vibration test at different frequencies for an extended period of time.

4. Thermal Cycle Testing

All samples undergo thermal cycle testing to stress integral components.

5. Receiving Inspection Testing

All parts undergo receiving inspection testing to ensure proper fit, form and function time and time again.
