938-1001	11.5mm Valve BMW & Harley Davidson
938-1003	8.5mm Valve KTM, Triumph & MV Augusta
938-1002	Bolt-In BMW & INDIAN

We proudly introduce a groundbreaking product tailored specifically for motorbike enthusiasts with our brand-new TPMS for motorbikes. Walker Products takes the lead in the market by offering a unique, cloneable, and programmable TPMS sensor designed exclusively for motorbikes in the European aftermarket.

This universal sensor revolutionizes the industry, providing unmatched convenience and versatility, as well as being incredibly adaptable, and allowing for effortless programming to suit the needs of any motorbike model. Whether you own a BMW, KTM, Triumph, MV Agusta, Indian, or Harley Davidson, Walker Products has got you covered. Our extensive coverage is continuously expanding, ensuring that we support an ever-growing range of motorbike models.

The Walker Products TPMS can be effortlessly installed in two different configurations: valve-based models with two valve hole options (8.5mm and 11.5mm), or a bolt-in version that can be securely screwed onto the inner part of your motorbike rim. This flexibility ensures a seamless integration with any motorbike, catering to diverse preferences and requirements.
