Diesel Engine Management Sensors For Cars & Light Trucks

The Walker Exhaust Temperature Sensors/High Temperature Sensors (ETS/HTS) meet or exceed all OE specifications. The ETS/HTS gives the highest accuracy and reliability in extreme conditions.

The Walker ETS/HTS utilizes an OE construction consisting of high temperature metals and ceramics. This allows the Walker sensors to deliver stable and accurate output despite the heat, vibration and contamination found in the exhaust.

OE Fit, Form & Function

Walker Products DPS's are designed to meet or exceed OE specifications. Our sensors have been tested for cyclic operation at high and low pressure in extreme conditions, vibration and shock resistance, humidity and temperature endurance, as well as thermal shock.
