

### Lambda Sensors

Walker Products has been delivering replacement Lambda Sensors to the UK and European market for over 22 years. Our reputation for unsurpassed quality comes from our commitment to develop a program that meets and exceeds OE quality in all specifications. The Walker Products Lambda program has grown to over 1,100 part numbers for the automotive market, and now branches into motorcycle and marine applications.

Walker's Lambda sensors are developed using 100% Original Equipment components and are 100% performance tested to ensure OE Fit, Form and Function. Regardless of the application, Walker ensures precise fitment and performance right out of the box.

As a Tec-Doc certified data supplier, Walker Products is continuously expanding their European product offering within the cataloguing platform. Walker Products strives to serve the UK and European marketplace with unsurpassed quality, service, and support.
