

# Vehicle Speed Sensors (VSS)

All of Walker's Vehicle Speed Sensors undergo rigorous testing.

## 1. Dimensional

All parts pass dimensional analysis versus OEM samples.

## 2. Function Testing

All parts are function tested for correct timing, amplitude and frequency versus OEM samples.

## 3. Vibration Testing

All samples undergo a cycle vibration test at different frequencies for an extended period of time.

## 4. Thermal Cycle Testing

All samples undergo thermal cycle testing to stress integral components.

## 5. Receiving Inspection Testing

All parts undergo receiving inspection testing to ensure proper fit, form and function time and time again.
