

Full Service Kit® (FSK®)

Industry Exclusive and Award Winning

Technology

- Pairs your new sensor with a new matching vehicle side pigtail/connector
- Includes the butt splice and heat shrink to connect it to the original harness for a water tight seal

Marketing

- Multiple product lines offered
- Throttle Position, Air Charge Temp, Coolant Temp, Radiator Fan, Temperature Indicator, MAP, CAM/ Crank Position, Vehicle Speed, and Knock Sensors
- More FSK® Coverage Coming Soon!
- Mass Air Flow, Ignition Coils, Variable Valve Timing Solenoids, Oxygen, Fuel Injector and more coming late 2021, early 2022

Coverage

- 680+ SKUs available
- Extensive coverage for Car & Light Truck, Domestic and Import, Gas, Diesel, Flex Fuel & LPG/CNG
- Coverage spanning from 1976 to present year

Technician Problem:

Walker Products FSK® Solution:

Each part comes with mating connector

WHAT IS A FULL SERVICE KIT® (FSK®)?

Walker Products Full Service Kit® contains not only the base sensor but also provides the mating connector and pigtail. Also included are butt splices and heat shrink to ensure a water-tight connection. For situations where the sensor and vehicle harness are faulty, an FSK offers a complete repair solution.

WHEN DO YOU NEED A FULL SERVICE KIT®?

The repetition of extreme heat and cold, known as "heat cycling", breaks down internal circuitry in the sensor but also deteriorates the connector and harness. Other contaminants such as oil and road debris also lead to connector and harness failures. When installing a Walker Products replacement sensor the mating connector and harness could inadvertently be damaged during the process. A Walker Products Full Service Kit® offers a complete repair solution.

HOW DO YOU KNOW YOU NEED AN FSK® OVER JUST A SENSOR?

For the technician, it saves time in completing the job, without searching for the mating connector and pigtail, reducing rack time making for happy customers and higher profits. For the DIY'er it saves a trip back to the parts store, dealership or salvage yard to buy the mating connector and pigtail. For the store it reduces deliveries and side trips to dealerships to buy the mating connector and pigtail leading to reduced returns and comebacks, higher profits and satisfied customers.
