YOUR FIRST CHOICE IN QUALITY PRODUCTS

About Us

Walker Products began supplying the fuel system needs of the automotive industry in 1946. Today Walker is one of the largest privately owned manufacturers of fuel system components and engine management devices.

We serve major Original Equipment Manufacturers, Co-manufacturers, Rebuilders, and Retail customers in the fuel, engine management and exhaust markets worldwide.

Walker Products' offerings include Carburetor and Fuel Injection repair kits, Oxygen sensors, Exhaust Gas Temperature sensors and other engine management products such as Cam & Crank position sensors, Knock sensors, Throttle Position sensors, Mass Air Flow sensors, Manifold Absolute Pressure sensors, Engine Coolant Temperature sensors, Fuel Injectors, Fuel Pressure Regulators and much more.

We are committed to supplying products manufactured to meet or exceed OEM standards and specifications. This effort is backed by our own manufacturing, product management and engineering staff to ensure it is maintained and accurate in the production of quality parts, vehicle applications, instruction sheets and technical support.

Automotive Injection Service Solutions

The efficient and cost-effective way to bench test and service every fuel injector.

• Service & Repair

- Increased exhaust emissions
- Reduced engine performance (Power, Torque)
- Increased fuel consumption
- Poor driveability situations
- Direct injection systems failure (Leaks, Pressure drop)
- Rough idle and periodic stall of the engine
- Conditions that lead to long-term catalytic converter damage
- Extended engine start-up
- MIL - check engine light-up.

• Adapters

- Standard Kit

Set of Fuel Rail & Adapters for all makes and types of Top-Feed Injectors.

- Exclusive Kit

Complete set of Fuel Rail & Adapters, special designed for simple adaptation to all makes and types of Top-Feed, throttle body and Side-Feed Injectors. (Set of injectors tested simultaneously)

- TBI Kit

Set of Fuel Rail & Adapters for all makes and types of throttle body and Side-Feed injectors. (One injector per test)
